

## **NCLT Seminar 2006**

**Professor Robert Chang**

Northwestern University & NCLT

### **Perspectives in Nanoscale Science and Engineer Education (NSEE)**

---

#### **Abstract**

Building capacity in NSEE is the driving mission for the National Center for Learning and Teaching in Nanoscale Science and Engineering Education (NCLT). Robert Chang, the Director of NCLT, will discuss the urgency of improving science education in this country and present how NCLT is granted the opportunity to serve and help fulfill this mission. Chang will explain how the Center is working to build capacity in NSEE; providing examples and programs of NCLT that aim to enhance STEM education in this country. The NCLT is building a network of collaborations with others in NSEE and plans to expand this network in the coming years, both nationally and internationally.
